

Lead With Confidence, Authenticity & Insight

**WORLD
CLASS TEAMS**

World Class Teams in collaboration with the Freight Trade Alliance (FTA) are excited to present the first workshop in the 2020 series. It is designed for current leaders and future leaders in the Transport and Logistics industry who want to ensure that they lead with confidence, authenticity and insight.

A leader's role is to inspire, encourage, challenge and coach their team, so that together they perform at their absolute best, impacting each other positively, achieving their goals and growing the entire business. As Leadership Thought Leader, John Maxwell, so aptly says "A leader is one who knows the way (insight), goes the way (authenticity) and shows the way (confidence)."

The skills required to lead a team are very different to those required to be a high-performing individual, and have changed significantly in the last five years. Fortunately these skills can be learned, and that's what this workshop is about!

WHO IS IT FOR

This is for you if:

- You know the leadership styles you don't want to model, and are looking for a style that is authentic and right for you
- Staff attitudes and expectations have changed – have you changed your leadership style to remain effective?
- Recognise that the people skills you need as a leader are very different to your technical skills
- Want to feel more respected as a leader

WHAT YOU'LL DISCOVER

- Determine your 'leadership blueprint'
- Tailor your leadership style to get the best out of your team and remain authentic
- How to demonstrate confidence in your decisions and actions
- The importance of non-verbal cues
- Helicopter technique to gain valuable leadership insights

MONDIALE
