

What makes us different

Relationships + Reliability = Results

We have a high emphasis on building and maintaining personal relationships with customers

We are flexible enough to offer a highly tailored service to suit a customer's changing needs

We treat our customer as people, never as number. 24 hour access to management

What our clients think

"Over the past 10 years, I have found Transfleet excellent to deal with. They consistently go above and beyond what's required, and are always very responsive to our needs and the needs of our customers and other suppliers.

Our paper products, quite soft and delicate to handle and easy to damage, but Transfleet always provide the highest level of care, and our deliveries are always timely, and reporting is fantastic."

Logistics Co-ordinator - Major International Importer...

Technology and Report

Transfleet is committed to continual investment in state of the art technology to ensure our customers are always able to track where their cargo is located. We are able to produce any report a customer nominates and can provide information to satisfy all KPI requirements.

Our innovative Technology solutions play a key role in our delivery service. We employ state-of-the-art technology across all services, from initial booking through to final delivery and invoicing.

Our systems allow us to

- ▶ Track the location and status of every container in real time
- ▶ Receive automated updates on job progress via email or EDI
- ▶ We offer a comprehensive range of reporting functions to our customers such as delivery turn around time report, stock holding reports, etc.
- ▶ Customers have a total, simple and seamless visibility of the status of their order irrespective of where it is in the supply chain.

Transfleet operates one national system platform. Updated in real time for 24/7 online tracking.
All our trucks are GPS enabled and PODs are automatically sent after electronic acceptance.

Our values and mission:

Transfleet has a core value of treating every person as a customer, whether they are customers, employees, suppliers or contractors. The principal objective of Transfleet is to provide a high degree of professionalism through quality service. Our company culture places a high emphasis on building and maintaining personal relationships with customers. This means that Transfleet is flexible enough to offer a highly tailored service to suit a customer's changing needs within the supply chain. It also means that our customers are always treated as people, never as numbers.

Vision

Our formula is that Relationships plus Reliability equal Results. We have longstanding multinational customers of over 20 years who know Transfleet, their service, their support and commitment.

Mission

Managing director Bill Power has insisted on remaining "hands-on and totally customer-focused" - a strategy that has shaped the company culture and secured long-term loyal customers.

Our History

Transfleet Transport Pty Ltd was first established in 1982 by Bill Power and has operated in the Port Melbourne area for the last 36 years. We have a philosophy that we need to be situated close to the ports to ensure easy movement of containers from Ports and onto freeway structures for prompt delivery to our customers.
